STUDENT APPEALS POLICY

Document ID: POL-AP-2024 Last Updated: March 2024

1. Grounds for Appeal

A student may appeal an academic decision (grade, progression, award) on the following grounds:

- (a) Procedural irregularity in the assessment process
- (b) Bias or prejudice on the part of an examiner
- (c) Extenuating circumstances that were not considered at the time of assessment
- (d) Administrative error in the calculation or recording of marks

Mere dissatisfaction with a grade is not a valid ground for appeal.

2. Appeal Timeline

A formal appeal must be submitted within 10 working days of the publication of results.

Late appeals (up to 21 working days) will be considered only with a supporting statement explaining the delay.

Appeals submitted after 21 working days will not be accepted unless exceptional circumstances are demonstrated.

3. Appeal Process

Stage 1 - Informal Resolution: The student must first contact the module coordinator within 5 working days of receiving the results.

Stage 2 - Formal Appeal: If unresolved, the student submits a Formal Appeal Form to the Academic Registry with supporting evidence.

Stage 3 - Appeals Committee: The Appeals Committee convenes within 15 working days to review the case. The student may be invited to attend.

Stage 4 - Outcome: The student receives a written outcome within 5 working days of the committee decision.

Stage 5 - Final Review: If the student remains unsatisfied, a final review may be requested to the Dean within 10 working days.

4. Possible Outcomes

Appeal Upheld: The original decision is overturned. Options include a re-mark, re-assessment, or grade change.

Appeal Partially Upheld: Some aspects of the appeal are accepted. The original decision may be modified.

Appeal Dismissed: The original decision stands. No further action will be taken within the same academic year.

5. Supporting Evidence

All appeals must be accompanied by relevant evidence (e.g., medical certificates, correspondence with staff, marked work).

The burden of proof lies with the student to demonstrate that one or more grounds for appeal are met.

Evidence that was available at the time of the original assessment but not submitted will not normally be considered.
